KIDS OF THE WORLD UNITE!

Every year, children from all over the world join a special online camp called 'Kids of the World Unite!'. This year, Lucy from England, Hiro from Japan, and An from Vietnam are participating. They meet online every Saturday to share about their lives and countries.

Lucy, who is English, showed them pictures of London, with its famous red buses and Big Ben clock tower. She also taught them a fun English nursery rhyme. Hiro, a Japanese boy, talked about his school in Tokyo and explained how to make origami, a Japanese paper art. He showed them a beautiful paper crane he made. An, who is Vietnamese, proudly presented her country's traditional áo dài and showed a video of a Water Puppet Show, which is very popular in Vietnam.

They discovered many similarities and differences. All three enjoy playing football, but their favorite foods are different: Lucy likes fish and chips, Hiro loves ramen, and An enjoys spring rolls. They also learned about different greetings and customs. They are planning to send each other postcards. This camp helps them understand that even though they live in different corners of the world, they can be great friends and learn to respect each other's cultures. A SURPRISE BIRTHDAY PARTY FOR BEN

Last week, our class planned a special secret for Ben. Ben was born on the twentieth of November. He thought nobody remembered his birthday! In the morning, Ben walked into the classroom. It was dark and quiet. Suddenly, the lights turned on! Everyone shouted, 'Happy Birthday, Ben!' Ben was so surprised that his eyes opened wide.

Our teacher, Ms. Anna, placed a large strawberry cake on the teacher's desk. There were nine pink candles on top. Ben blew out all the candles in one big breath. Then, Tom gave Ben a colorful card. All of us wrote friendly messages inside it. Linh brought floating balloons, and Nam played a happy song on his recorder.

Ben said, 'Thank you, everyone! This is the best birthday party ever!' We shared cake, played musical chairs, and laughed together. Ben will remember this happy day for a very long time.

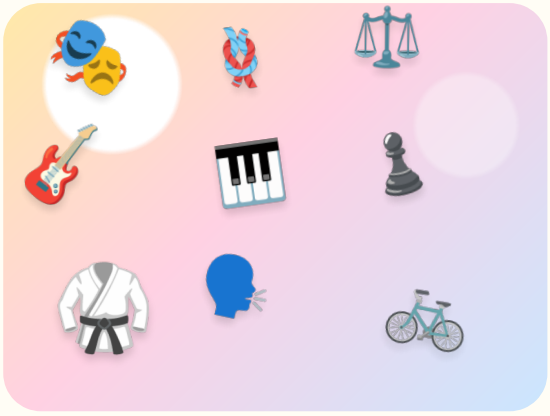
MAI'S JOURNEY OF LEARNING NEW SKILLS



Learning new abilities takes time, practice, and patience. Mai is a bright nine-year-old girl living in Hanoi. When Mai was five years old, she couldn't ride a bicycle without small training wheels. She fell down many times on the paved path in the park. However, Mai didn't give up. She tried again every afternoon after school. By age seven, she could ride smoothly and balance perfectly.

Today, Mai has new goals. She is learning how to speak English fluently and play chess strategically. In English class, she can answer complex questions faster than before. Her teacher says she is getting better every week because she reads short stories every evening. In chess, Mai can plan three moves ahead, although her older brother An can still beat her because he is older and has played longer.

Next year, Mai will join the school swimming club to learn how to dive safely. She believes that anyone can acquire wonderful new talents if they work hard every day. Hello everyone, my name is Linh. Last week, my family celebrated Tet at my grandparents' house in Hue. Before Tet, my mom and grandma baked square sticky rice cakes in a large pot over a warm fire. THE SCHOOL HEALTH CLUB

Welcome to the Grade 4 Health Club presentation! Today, Linh and Tom are sharing three simple rules for a healthy life. First, choose good fuel for your body. Your body is like a super car; it needs clean fuel to run fast. Eating vegetables, fruits, fish, and drinking plenty of pure water gives you maximum power. Junk food with too much sugar will slow you down. Second, keep your body active every day. You should exercise for at least thirty minutes daily. You can run, swim, ride a bike, or dance to active music. Exercising makes your heart strong and your brain sharp. Third, give your body enough rest. Sleep is the best medicine for a tired body. Children aged nine should sleep nine to ten hours every night. When you sleep, your body grows and repairs itself. Yesterday, our club surveyed fifty students in our school. We found that students who sleep early and eat fruits every day get higher marks in class! Let us build healthy habits together starting from today!

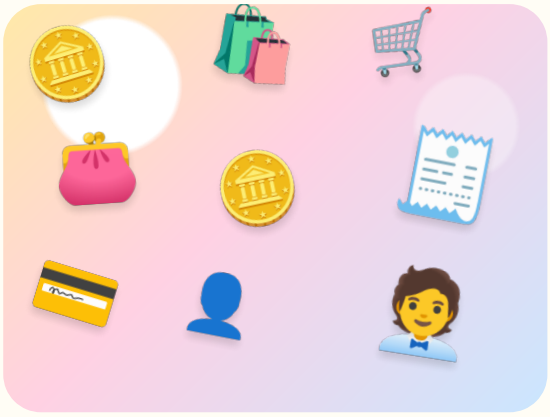
THE SCHOOL FLEA MARKET



Last Sunday, Primary School No. 1 organized a charity flea market in the main school yard. Students brought old toys, handmade crafts, storybooks, and delicious homemade snacks to sell to each other. Minh and his group set up a small table named 'Happy Books & Toys'. Minh brought five comic books and three small robot toys that he did not play with anymore. His friend Linh baked tasty chocolate cupcakes. They marked clear prices on every item with small yellow paper tags.

At nine o'clock, many customers visited their table. Ben, a classmate, walked over and asked, 'How much is this comic book?' Minh replied, 'It is 10,000 dong. It is very cheap and interesting!' Ben decided to buy two comic books. Later, Mia came and bought two cupcakes for 20,000 dong. By eleven o'clock, Minh and Linh had sold all their items. They collected a total of 180,000 dong in cash in their blue pencil box. They were very proud because all the money collected from the market will go to buy winter clothes for poor children in rural areas. Shopping and selling at the market was not only fun, but it also taught them how to manage money and share love with community.

We bought one kilogram of apples for 40,000 dong and two bottles of milk for 30,000 dong. Next, we walked to the school section because I needed a new pencil case. THE SMART OCEAN MAMMALS

Dolphins and whales are remarkable wild mammals that live in oceans across the world. Although they live underwater, they are not fish. They breathe air through blowholes on top of their heads. Dolphins are famous for being smart and friendly. They can jump high out of the water and perform playful tricks. In addition, dolphins use special clicking sounds to talk to each other and navigate underwater. Whales are much bigger than dolphins. In fact, the blue whale is the largest animal on Earth! It is even bigger than the biggest dinosaur that ever lived. Unfortunately, ocean pollution and trash harm these wonderful creatures. Today, young students around the world are working together to clean up beaches so ocean animals can swim safely.

PROTECTING OUR WILD FRIENDS AND THEIR HABITATS

Every wild animal plays a special role in nature. Lions and tigers keep the forests balanced by hunting weaker animals. Elephants create pathways through dense jungles that help smaller animals walk easily. Monkeys help plant new trees by dropping seeds across the tropical forest floor. However, many wild animals are in danger today because people are cutting down forests to build cities and farms.

When trees disappear, wild animals lose their natural habitats and food sources. For example, giant pandas struggle to find bamboo forests, while cheetahs lose wide grasslands for hunting. Furthermore, illegal hunting makes many species rare and endangered. If we do not act now, some beautiful animals will vanish forever.

Fortunately, children and adults can take simple steps to save wildlife. We can reduce plastic waste, plant more trees, and support national parks. Schools can organize eco-friendly events to teach students about nature. Last week, Mai's class created colorful posters about endangered tigers. Next month, they will plant twenty young trees in their school garden. When we protect nature, we protect all living things on Earth.

Hello everyone! Welcome to Nature World Radio. Today, ranger Tom is telling us about his trip to the tropical jungle. Last week, Tom walked deep into the green forest. Early in the morning, he saw three noisy monkeys swinging in the high trees. They were eating sweet yellow fruits. Near the river, Tom saw a big crocodile resting on the warm sand. It was very quiet. Then, Tom heard a loud sound in the bushes. A strong tiger was walking slowly through the tall grass! Tom stayed very quiet and took three beautiful photos. Tom says that jungle animals need big, clean forests to live safely. Next month, Tom will visit an ocean bay to study wild dolphins. Let me know if you want to join our junior ranger club!

CAMPING IN THE MOUNTAINS

Hello, I am Linh! Last June, my family did not go to the beach. We went camping in the cool mountains near Ba Vi. We packed two green backpacks, a yellow tent, and warm sleeping bags into our car. The trip took about two hours. When we arrived, the air was fresher and cooler than in the city. My brother Minh and I helped our dad put up the tent on green grass near a small stream. In the afternoon, we explored the forest, walked along shady paths, and took many photos with my camera. We could hear colorful birds singing in the high trees. At night, we built a small campfire, roasted sweet corn, and listened to dad's funny stories under the starry sky. It was a unique holiday because I learned how to set up a tent and protect nature.

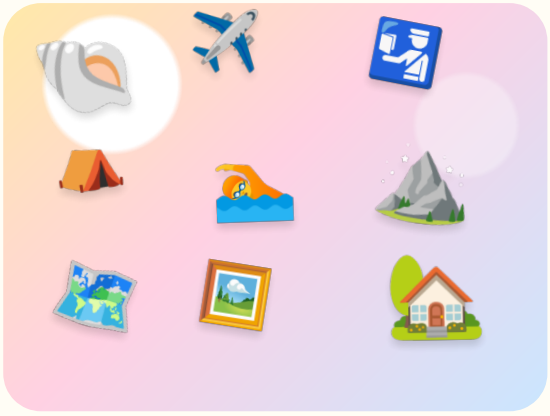
MEMORIES AND FUTURE PLANS



Every summer brings unforgettable memories for school children. Last year, my friend Ben from England visited Viet Nam during his summer break. He stayed with my family in Da Nang for ten sunny days. Together, we visited the famous Dragon Bridge and spent hours swimming in the ocean. Ben said that Da Nang beach was wider and cleaner than the beaches near his hometown. We also tried water slides at a huge waterpark and collected glossy red seashells along the shore. I gave Ben a silk lantern as a special gift, and he gave me a British postcard with a picture of Big Ben.

Next summer, my family will visit my grandparents in the countryside near Can Tho. We will travel by coach early in the morning. I am very excited because I will learn how to ride a bicycle through green fruit orchards. My brother plans to go fishing with our grandfather in a small wooden boat. We will stay there for two full weeks. Summer trips are wonderful because they allow us to relax, explore new places, and store warm memories with the people we love most.

👩‍🏫 Teacher's Listening Script

Hello everyone! My name is Hoa. I had an amazing summer holiday with my family last month. We packed our yellow luggage and flew to Phu Quoc Island. The weather was sunny and bright. We stayed at a quiet resort right by the sea. Every morning, my brother and I built huge sandcastles on the beach and collected pink seashells. My mother applied sunscreen on us so we didn't get sunburned. In the evening, we ate delicious seafood like grilled squid and crabs at the local night market. My father took hundreds of beautiful photos with his digital camera. Before going home, I bought three colorful shell keychains as souvenirs for my best friends. Next summer, we will visit the high mountains in Sa Pa. I love traveling so much!
